

Belting Accessories

Apex Belting are the main distributor and stockist in East Anglia for all types of belting clips, bolts, fasteners and other adhesives.

Our wide range of mechanical fasteners are suited for all industries, both heavy and light-duty.

From galvanised and antimagnetic stainless steel for our food quality belts to high tensile staple fasteners for recycling and waste handling, our team will always endeavour to provide additional parts or replacements.

We supply an extensive range of rollers, drum lagging and skirting material for our belts, including drive and tail rollers, return rollers and troughing sets in many different sizes.

Our skirting rubber is specifically designed to display abrasion and ozone resistance, well-suited for heavy-duty industries.

Our sales team and site fitters are always on-hand to offer flexible and practical solutions and recommendations.

24/7 Emergency Servicing & Repairs
